OBJECTIVE

Data Analyst with a Computer Applications background, building real-world experience in SQL, Python, Power BI, and Tableau. I like turning messy datasets into dashboards and numbers people can actually act on, and I'm looking to bring that into a full-time analytics role.

EDUCATION

Data Analytics, SLA Institute (2025 - 2026)

Bachelor of Computer Application (BCA), Hindustan Institute of Technology and Science (2022 - 2025)

Higher Secondary (Computer Science & Biology), Kariyad Nambiar Higher Secondary School (2018 - 2019)

TECHNICAL SKILLS

Python (pandas, NumPy, Matplotlib, Seaborn), SQL, Power BI, Tableau, Excel (Pivot Tables, Advanced Formulas), Exploratory Data Analysis, KPI Reporting, Google Analytics (GA4)

PROJECTS

Employee Attrition Analysis

SQL, Python, Power BI

- Dug into employee data to explain a 16.12% attrition rate (237 of 1,470 employees).
- Traced it back to overtime, job role, and pay - found a \$2,046 average income gap between people who stayed and people who left.
- Built a Power BI dashboard with KPI cards and department breakdowns for HR to actually use.

Walmart Sales Analysis (2010 - 2012)

SQL, Python, Tableau

- Worked through 6,435 weekly sales records across 45 Walmart stores using SQL and Python.
- Found holiday weeks bring in about 7.8% more sales on average than regular weeks.
- Published an interactive Tableau Public dashboard covering seasonal trends and how sales track against fuel price, CPI, and unemployment.

Customer Behavior Analysis

Python, EDA, Power BI

- Cleaned a customer shopping dataset - fixed missing values, standardized types and column names.
- Identified purchasing segments and trends to support business decisions.
- Built visualizations and a Power BI report to walk through the findings.

CERTIFICATIONS

- Google Analytics Certification - Google Skillshop (June 2026)
- Data Visualization with Power BI - Microsoft & Great Learning (June 2026)
- SQL (Basic) - HackerRank (June 2026)
- Data Analytics - SLA Institute (2025 - 2026)
- Quantitative Research Job Simulation - JPMorgan Chase & Co., via Forage (July 2026)
- Data Analytics Job Simulation - Deloitte, via Forage (July 2026)

LANGUAGES

Malayalam (native), Tamil, English, Arabic
